

March 31, 2007

Dear Dr. Kreiss,

I just wanted to write a letter to inform you how much I and the students in my course enjoyed your presentation when you were a guest speaker at CCRI for the Health Care Interpreter course earlier this month.

I received many positive comments from the students after your discussion and after viewing your film. You speak in a very friendly, engaging manner which also communicates your vast experience, research, and extent of your knowledge. When you present, this is conveyed in a very approachable manner as well, as you fielded questions and comments in a very kind and yet most knowledgeable manner. The quality of the film was first-rate, and the students felt that it really was helpful to enhancing the information that they are gaining in the health care field. Your information regarding Advance Directives was especially meaningful to them.

We feel grateful that we were able to have had the experience of having met with you and having had you present to us in our classroom setting. Thank you for giving of your time and talent to our students as well as to me. It was a pleasure meeting you. I hope to be able to repeat this experience in the future with you.

Sincerely,

Brenda Coutu, RN, M. Ed.
Adjunct Faculty Member,
Instructor of Health Care
Interpreters, CCRI
